

For Immediate Release

Integrity International Trade & Investment Network (IITBN) Partners with Alonz Technologies, LLC in Libreville, Gabon

A New Era of Collaboration to Empower Emerging Companies Globally

Randallstown, Maryland—October 16, 2024- Integrity International Trade & Investment Network (IITBN) is proud to announce its strategic partnership with Alonz Technologies, LLC., based in Libreville, Gabon. Together, these organizations will join forces to address the needs of larger companies by fostering collaboration through small to medium-sized enterprises. Through this partnership, both companies aim to onboard and empower emerging businesses to tackle diverse projects, creating impactful and innovative solutions.

IITBN plays a vital role in the global trade and investment sphere by offering high-quality platforms, opportunities, and training programs tailored for emerging companies. With a strong foundation of working alongside governments and larger corporations, IITBN has carved out its niche, thriving by witnessing the transformative results of its contributions toward generational success.

Alonz Technologies, led by the visionary Mr. Jean Claude Nzamba, excels in crossing borders with a team of skilled strategists. Their expertise spans critical fields, including cybersecurity, big data and infrastructure, green technologies, GPS tracking, geofencing, agri-technologies, drones, robotics, and more.

IITBN is a staunch advocate for excellence, emphasizing strategic and organizational planning to ensure sustainable and impactful projects that extend well beyond the contract term. Investors, project managers, emerging companies, and trainers are invited to collaborate with IITBN. This partnership underscores the importance of sharing resources, information, and financial tools to foster thriving communities and prosperous nations.

Dr. Cheryl A. Hill, President/CEO of IITBN, alongside Dr. Shelia Eggleston, Chief Strategic Officer, and Mr. Jean Maurice Prosper-Global Advisor, continue to guide IITBN toward a groundbreaking and successful 2025.
